## Working Paper containing additions and amendments for inclusion in the draft treaty on the non-proliferation of nuclear weapons

ARTICLE IIA:

Each nuclear weapon State Party to this Treaty undertakes, if requested, to come to the aid of any non-nuclear weapon State which is threatened or attacked with nuclear weapons.

ARTICLE IVA:

Each Party to the Treaty undertakes to cooperate directly or through the IAEA, in good faith and according to its technological and/or material resources, with any other State or group of States Party to this Treaty in the development and advancement of nuclear technology for peaceful purposes, and in the fullest possible exchange of scientific and technological information on the peaceful uses of nuclear energy.

The nuclear weapon States Party to this Treaty shall make available, through the IAEA, to all non-nuclear weapon Parties, full scientific and technological information on the peaceful applications of nuclear energy accruing from research on nuclear explosive devices.

The nuclear weapon States Party to the Treaty shall also provide facilities for scientists from non-nuclear weapon countries Party to the Treaty to collaborate with their scientists working on nuclear explosive devices, in order to narrow the intellectual gap which will be created in that field as a result of restrictions imposed by this Treaty on non-nuclear weapon States.

ARTICLE IVB:

Each Party to the Treaty undertakes to communicate annually to the IAEA, full information on the nature, extent and results of its cooperation with any other Party or group of Parties, in the development of nuclear energy for peaceful purposes. The Reports so received by the IAEA shall be circulated by the Agency to all the Parties to the Treaty.

Each Party shall, in exercising its national sovereignty, have the right to withdraw from the Treaty if it decides:

(a) that the aims of the Treaty are being frustrated;
